

# Lead with Moxie

## I'll Have What She's Having: 5 Beliefs & Behaviors of Highly Successful Women

### Keynote Workshop Description

Roll up your sleeves and get ready to laugh, learn and take action on growing yourself and your leadership abilities. Part speech, part learning boot camp this session is not a spectator sport- it's more like full body contact.

Program participants will leave with:

- A clear understanding of five growth and success factors (and what can be holding them back) of high performing women
- A bonus "1/2" success factor that just may be the secret sauce of successful women
- 5 tools they can begin using and applying immediately (starting in the session!) to drive their success
- A renewed or enhanced sense that they really are capable, brilliant women ready to grow and perform at the highest levels

### Maureen Berkner Boyt

is the Founder of The Moxie Exchange and its girl's leadership development program, The Go Girl Project. She is a thought partner to organizations and executives serious about women's leadership development and building inclusive workplaces. She holds a M.Ed. in Organizational Development, is a graduate of Corporate Coach U, authored the 5-book series, *Rock Your Moxie: Power Moves for Women Leading the Way* and the host of a monthly online workshop series.

Mo is a life-long student of leadership, business and success. She has coached and trained 1,000's leaders around the globe and founded multiple successful businesses. Maureen knows that every woman is capable of being an extraordinary leader and of achieving ridiculous levels of success in their lives. Her passion is bringing out the potential in female leaders and she truly believes that when women are fully represented at the executive level in corporate America, we will begin to solve large global problems in a meaningful way. Maureen also believes that we need to tuck the next generation of female leaders under our wings when they are still girls so that they can step into their leadership at an earlier age.
